

Germ Ex Hospital Grade Disinfectant Cleaner

Jeyes Germ Ex is a hospital grade disinfectant cleaner.

Features and Benefits

- Jeyes Germ Ex utilises the latest in thick bleach technology thus it clings to vertical surfaces for a longer period of time than traditional bleach enabling it to sanitise and disinfect more effectively.
- Jeyes Germ Ex is a powerful bleach and an aggressive cleaner making it effective against the HIV virus and Hepatitis B and anywhere where there is a risk of contamination from body fluids, particularly Hospitals and Rest Homes.
- Jeyes Germ Ex is concentrated making it economical in use .
- Jeyes Germ Ex is available in two sizes, 5L and 850ml dispenser bottle.
- The packaging is environmentally friendly as the container and carton are recyclable. Similarly, the surfactant in **Jeyes** Germ Ex is biodegradable.

Product Usage

How to use Jeyes Germ Ex

Blood, Body Fluids, Body Waste:

1 Clean up any gross soilage and dispose of by approved method such as flushing down the toilet.

2 Dilute **Jeyes** Germ Ex at 1 part to 9 parts warm water.

3 Apply liberally to the surface to be cleaned.

4 Leave for approximately 10 minutes, then wipe down the surface. Rinse with potable water.

NOTE: At this dilution rate **Jeyes** Germ Ex will deliver 5000 PPM available chlorine and is effective against both the Hepatitis B and HIV viruses.

General Disinfecting:

1 Clean up any gross soilage and dispose of by approved method such as flushing down the toilet.

2 Dilute **Jeyes** Germ Ex at 1 part to 99 parts warm water.

3 Apply liberally to the surface to be cleaned.

4 Leave for approximately 10 minutes, then wipe down surface. Rinse with potable water.

NOTE: At this dilution rate **Jeyes** Germ Ex will deliver 500 PPM available chlorine.

Other Cleaning:

Jeyes Germ Ex can be used in all normal applications of general bleaches such as whitening clothes, cleaning toilets and hand basins.
