

Diverclean System

Shurfoam

Foaming Detergent Sanitiser

Shurfoam is a liquid chlorinated alkali foam detergent sanitiser for use in areas where combined cleaning and sanitising is required. Shurfoam is effective over a wide range of soil types and water conditions. It is particularly effective on greasy and proteinaceous soiling. It can be applied through all types of foaming equipment, such as venturi, ring mains and airless systems.

Features

- Blend of selected alkalis and surfactants – producing long lasting stable foam for better removal of fats, oils and carbohydrates.
- High level of available chlorine – providing highly effective sanitation.
- Powerful – can be used for cleaning of plant and equipment where single stage cleaning and disinfection is required.
- Low temperature effective – Removes requirement for hot water, which reduces energy usage.
- Fully biodegradable surfactants.

Use Directions

Foam Application

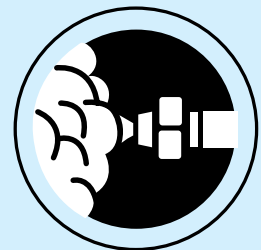

- Remove gross soiling by rinsing. Use a concentration of 1-2% (10-20ml/litre) with cold or warm water. Leave in contact with surface for 5 - 10 minutes. Rinse off with potable water.

Manual Application

- Remove gross soiling by rinsing. Apply a 0.5-1.0% solution (5-10ml/litre) in cold or warm water then manually scrub the soiled surface. Leave solution in contact with surface for 5 -10 minutes before rinsing with potable water.

Soak Application

- Remove gross soiling by rinsing. Use a solution concentration of 1-5% (10-50ml/litre) depending on the degree of soiling in warm water. Leave in contact for 15 - 30 minutes (or longer) before rinsing with potable water.

Shurfoam

Physical / Chemical Properties

Appearance: Pale yellow liquid
Specific Gravity: 1.20 g/ml @ 20°C
pH (1%): 12.0
Hazardous Contents: Sodium hypochlorite (UN. No.1791) 22g/litre Sodium hydroxide (UN. No. 1824) 80g/litre

Health & Safety

First Aid

- In case of contact with eyes or skin rinse immediately with large quantities of water (15 minutes minimum). Seek medical attention.
- If swallowed remove material from mouth and drink milk or cold water. Seek medical attention.

Safe Handling

- Wear gloves and suitable eye / face protection.
- Store in cool dry place away from foodstuffs.
- Do not mix with other chemicals.

Registrations

MAF Approved C38 (Fish, Game, Meat)

For further information on safe handling and storage refer to the Material Safety Data Sheet
