

Signature Sealer / Finish

Signature is an Ultra High Speed floor sealer/finish that provides a spectacular gloss, unsurpassed durability and dirt release. Signature is easy to apply and maintain, whilst giving excellent buff response at speeds up to 3000 rpm. Signature can be thin coated for fast drying times and still form a strong film in cold weather to help prevent powdering.

Features and Benefits

- Coverage: 1 litre approx. 50-60 square metres.
- Signature produces a brilliant clear shine with excellent durability while resisting scuffing and dirt penetration.
- Signature can be thin coated for quick drying allowing faster recoating times.

Product Usage

Directions for Use:

1. Remove all old sealer/finish using appropriate JohnsonDiversey floor stripper as per label directions.
2. If a chemical resistant floor sealer is desired, apply JohnsonDiversey Technique in accordance with label directions.
3. Apply 4-5 thin coats of Signature using a clean mop or applicator and a clean bucket. Apply all coats across the direction of the previous coat to ensure even application of Signature.
4. Allow each coat to dry thoroughly. This should take approximately 45 minutes per coat.
5. Do not burnish the floor within 24 hours of the last coat drying. Do not dilute.

Sealer / Finish

MAINTENANCE

1. Signature must always be cleaned with Reveal cleaner diluted via a JohnsonDiversey approved dilution control unit or correctly diluted from a bulk pack.
2. Clean the floor thoroughly using an automatic scrubbing machine or mop and bucket, removing dirty solution from the floor.
3. Burnish the floor with the appropriate JohnsonDiversey floor pad.

First Aid

In case of contact with eyes rinse thoroughly with large quantities of water for at least 15 minutes.

If swallowed do not induce vomiting. Drink milk or water. Seek medical attention.

See Material Safety Data Sheet for further information.

Approvals

Meets the dry surface slip resistant requirements of AS/NZ5 3661:1993
